-2- CIRCULAR # 588

We recognized that preceding contemplated actions may cause some problems for shipping companies in certain NATO countries but hope that NATO member governments, through consultation these companies, will be able persuade them to make necessary adjustments. This connection, steps which we are considering to carry out point 2 will take into account existing charter arrangements, and there will be some administrative "phasing in" on other points.

~~Secretary orally informed CAS Pomins currently meeting Washington Oct 2 of above proposed actions re shipping with Cuba.~~

First report indicates that Council reps appeared to appreciate seriousness of US presentation. There were few questions. Council reps now informing Govts; no specific date immediately set for resumption of discussion.
